**More real project photos from our website

HMEMC develop and manufacture RF shielding door more than 25 years, we have the patent for door structure.

Door operate structure: Manual / Electric motor / Pneumatic cylinder

RF Shielding structure: Single knife with 2 layers finger / Double knives with 4 layers finger

Door leaf structure: Single leaf / Double leaf / Sliding

Door frame structure: Welding frame / Screw assemble frame / Sandwich frame

Door clear size: 1000x2000 (standard) or customized size

RF shielding performance: 14KHz>75dB 100KHz-18G>100dB 40G>90dB
or customized attenuation

RF Shielding Door For chamber

Manual operate Door
Single leaf

Electric motor operate Door
Double leaf

Electric motor operate Door
Single leaf

Full automatic sliding door system
Pneumatic lock/unlock electric motor move
**For door with pyramid absorber

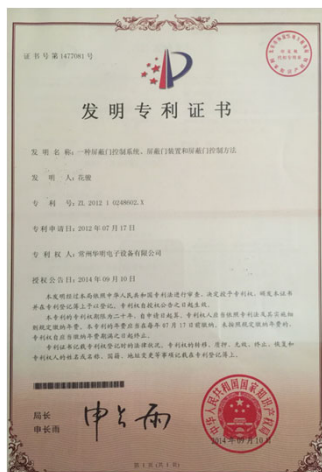

Full automatic sliding door system
Pneumatic lock/unlock electric motor move
**For door without pyramid absorber

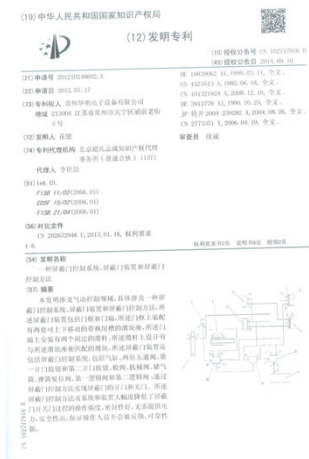

Pneumatic operate Door
Single leaf

Manual operate Door
Double leaf Sandwich edge
